

Check For Running Process

Check for a running process. If the process is not running, start it.

#CHECK RUNNING PROCESS

```
$Check = (Get-Service -Name <ServiceName> -ErrorAction SilentlyContinue -ErrorVariable ProcessError)

Invoke-Command -ScriptBlock{
    if($Check -eq $null)
    {
        Write-host "<ServiceName> is not running" -ForegroundColor Red
        Start-Service -Name <ServiceName>
        Write-host "<ServiceName> was started" -ForegroundColor Yellow
    }
    else
    {
        Write-host "<ServiceName> is running" -ForegroundColor Yellow
    }
}
```
